

Fall Open House Events

On October 14th and 21st, our children shared favorite learning experiences with their families. Siblings, parents, cousins, aunts, uncles, grandparents, and friends shared the children's excitement as they confidently demonstrated our favorite routines and activities. Thanks for taking the time to engage in the experience with us! Remember that you can learn about the children's daily activities by reading the web message that their teachers also send electronically each day via email. Talking about the highlights of each day helps the children reflect on their learning and affords families the chance to enhance and extend it.
