Dear Partners in Education,

The Children's School at Carnegie Mellon is a laboratory school that is actively involved in preschool and kindergarten education, interdisciplinary research on development and learning, undergraduate teaching and mentoring, and professional development of pre-service and practicing educators. We offer a model half-day preschool and full-day kindergarten program for 96 children ages 3-6, plus an extended morning program for 24 of the morning preschoolers. Our program runs from September through mid-May, with the option of a half-day summer camp in June. The Children's School was founded in 1968, has been accredited by the National Association for the Education of Young Children (NAEYC) since 2003, and has been licensed by Pennsylvania as a Private Academic School since April of 2014. Serving as a laboratory school in a Psychology Department on the campus of a major research university enables our staff to both learn about and participate in current developmental research. We intentionally strive to use developmentally appropriate goals for young children as a framework for planning our inclusive educational program and assessing children’s progress in all aspects of the social, cognitive, and physical foundations necessary for success in primary schooling. We emphasize diversity throughout our program, and our individualized, developmental approach lends itself to meeting the unique needs of most children. Similarly, we utilize theories of adult development to support the lifelong learning of the wide range of staff, family members, researchers, undergraduates, and colleagues that participate in our programs. By continually striving for quality improvement in all aspects of our mission, including the foundational finances and facilities, our laboratory school exemplifies progressive design in education that can be utilized by professionals in various disciplines to meet the changing needs of society (10.A.01).

We invite each Children’s School family to become actively involved in all aspects of our mission (1.A.01). As prospective families, you gained basic familiarity with our philosophy, staff, programs for children, approach to meeting learning goals, and research involvement. We hope that you have and will continue to utilize our web site to explore each aspect of our laboratory school in more depth (www.psy.cmu.edu/cs). The purpose of this Family Handbook is to provide an organized source of detailed information specifically related to the ways that families can partner with the school to ensure a high quality experience for all of the learners at the Children’s School. We provide this handbook in a three-ring binder for easy organization of important papers. All subsequent newsletters and other important information will come three-hole punched for easy insertion into the notebook or will be sent via email and our websites so that you can choose which to download. In addition, interested families can review and/or download supplemental materials, such as the staff handbook, developmental objectives, research policies, presentations/publications, Emergency Action Plan, etc. from our web site, as well as find useful links to accreditation standards and a variety of parent resources. Please have all of your children’s primary caregivers (e.g., extended family, nannies, etc.) review the handbook and other materials thoroughly. As your interests and schedule permit, please respond to our varied offers to become involved in learning at the Children’s School. During the 2016-2017 school year, we especially encourage your involvement in the Family Social Organization and in our exploration of THEATRE for our Whole School Unit.

We look forward to collaborating with you.

Warm regards,
Sharon M. Carver, Ph.D., Director (on behalf of all our educators)
TABLE OF CONTENTS

Strong Foundations (yellow):
- Educational Philosophy 3

- Child Release and Observation 32
- Behavior Guidelines 33
- School Cancellations 36
- Emergency Action Plan 37
- University Tuition Regulations 38

Note that the numbering throughout this handbook corresponds to the NAEYC accreditation standards reflected in that section.
EDUCATIONAL PHILOSOPHY (2.A.01)

The Children’s School’s approach to preschool and kindergarten education is based on theories and research in Developmental Psychology, together with years of educational practice. Our approach is also aligned with the guidelines set by the National Association for the Education of Young Children (NAEYC) for developmentally appropriate practice and with the Pennsylvania Early Learning Standards.

Goals -> Program -> Assessment

We use our developmental goals as a systematic framework for focusing our program and assessment design. Our teachers are well versed in a wide variety of educational approaches, and we choose teaching strategies, daily routines, classroom arrangements, and curriculum structure that will encourage each child’s development in all domains. Teacher observations and documentation of individual development are used to adjust the program to better promote individual growth, as well as to conference with parents about ways we can work as a team to support each child (4.A.01).

LABORATORY SCHOOL

As part of the Psychology Department (10.A.01), we serve as a laboratory for research in child development and related fields. Our Director and educators interact with researchers to strengthen studies so that our children eagerly participate in their "special games" and the resulting data meet scientific standards. Parents receive brief descriptions of ongoing studies and summary results of completed research. Please refer to the Research section of our web site for further information.

Undergraduates taking the introductory child development course, and other related courses, make detailed observations during our program hours in order to gather data for course projects. Many of them return as undergraduate interns and student employees who enhance our children’s experiences while their involvement here strengthens their connections between theory, research, and practice.

To support the professional development of both pre-service and practicing educators, the Children’s School staff models and shares the educational approaches that we develop. We offer workshops, consultation and seminars in a wide range of local and national venues, and we provide related resources on our web site.

Our program is strengthened by our relationship with Carnegie Mellon (8.B.02). As part of the University community, our classes have access to facilities such as the gym and track, can schedule walking field trips to interesting places such as the campus post office, food services, robotics lab, and the Purnell Center for the Arts, and have visits from university musicians, security officers, construction workers, et cetera (8.B.04). The Psychology Department provides funding for computing services and part of our administrative costs, and the University provides facilities management, accounting,
human resources, legal, and security services, as well as managing environmental health and safety for the entire campus.

NAEYC ACCREDITATION

The National Association for the Education of Young Children (NAEYC) has created 10 standards that measure the quality of early childhood programs. The standards were created by a blue-ribbon panel of early childhood experts and are based on the latest early childhood research.

As a NAEYC-accredited program, the Children’s School meets a high quality standard by:

1) Promoting positive relationships for all children and adults to encourage each child's sense of individual worth.
2) Implementing a curriculum that fosters all areas of child development: cognitive, emotional, language, physical, and social.
3) Using developmentally, culturally, and linguistically appropriate effective teaching approaches.
4) Providing ongoing assessments of a child's learning and development and communicating the child's progress to the family.
5) Promoting the nutrition and health of children and protecting children and staff from injury and illness.
6) Employing a teaching staff that has the educational qualifications, knowledge, and professional commitment necessary to promote children's learning and development and to support families' diverse needs and interests.
7) Establishing and maintaining collaborative relationships with each child's family.
8) Establishing relationships with and using the resources of the community to support the achievement of program goals.
9) Providing a safe and healthy physical environment.
10) Implementing strong personnel, fiscal, and program management policies so that all children, families, and staff have high-quality experiences.

Each staff member is responsible for engaging fully in all professional practices related to maintaining the Children’s School’s status as a high-quality NAEYC Accredited program, as well as the NAEYC self-assessment process leading to renewal every 5 years. Our current accreditation is valid from 7/1/13 through 7/1/18, and we complete annual reports each spring to document our continuous quality improvement. The programs offered by the Children’s School also fall under the regulatory jurisdiction of the Pennsylvania’s Board of Private Academic Schools, so we are licensed as a Private Academic School (10.B.04). The Administrative Team collaborates to guide the documentation procedures and complete the required paperwork for our NAEYC annual reporting and renewal, as well as the annual PA licensing renewal.
STAFF TEAMS (10.B.01)

The Children’s School is staffed by five teams of educators – an Administrative Team, a Preschool 3’s Team, a Preschool 4’s Team, an Extended Day Team, and a Kindergarten Team – plus an additional full-time educator and an intern who can substitute on any team. All teachers and administrators have many years of experience in education, as well as a bachelor’s degree and often an advanced degree in early childhood education, psychology, or a related field (see Staff Team Biographies, 6.A.05, 06). Undergraduate interns and student employees complement each team, and pre-service teachers from local colleges often do field placements or student teaching at our school.

Children’s School employees are hired and managed according to the Human Resource policies of Carnegie Mellon (10.E). They are thoroughly oriented (6.A.03), earn a competitive salary, have paid planning time, and, if working full-time, receive full benefits, including tuition. The Children’s School provides an extensive professional development program of approximately 90 hours per year, as well as supporting each individual’s annual goals for growth via additional seminars, publications, and professional experiences.

Our experienced educators participate actively in the local, national, and international early childhood communities by serving in leadership capacities, giving regular presentations, providing consulting to other programs, and partnering with high-quality programs to develop new avenues for early childhood professional development (8.C, 6.B.02.). All of our partner organizations are seeking ways to support each other and create synergies between their professional development initiatives that will enhance the quality of reflective training opportunities and serve as a resource for early childhood educators across the broad continuum of professional development.

INTERACTION GUIDELINES (7.A.01-14, 10.B.01)

Regardless of position, each staff member’s job description includes the following priorities for action and interaction: “Speak and behave in a professional manner with staff, children, parents, university partners, visitors, service people, et cetera, at all times. Strive to be a team player, taking initiative to help with tasks, share space and materials, offer support and constructive critique, etc. for the benefit of the whole staff. Keep the “big picture” of our school’s entire mission in mind to effectively balance competing demands. Follow the school and university policies and procedures carefully and with attention to timeliness. Be prepared to flexibly adapt to the diverse situations that arise in early childhood education, particularly in a university lab school. Use the core values and standards of the National Association for the Education of Young Children (NAEYC) to guide all aspects of program implementation and enhancement. Abide by the ethical standards of NAEYC, with particular attention to confidentiality.”
Children’s School staff members follow the ethical principles of the National Association for the Education of Young Children (6.A.01). We share the following core values as guides for interactions among staff members, between staff and children, between staff and parents, between staff and undergraduates, researchers, university employees, etc. (1.A, 1.B).

- We use direct eye contact, smiles, warm tones of voice, positive touch, social conversations, and joint laughter to support the development of effective working relationships.
- Our partnership in learning is supported by regular, reciprocal communication, affirming recognition of effort and accomplishment, predictable, developmentally appropriate responsiveness to initiative, emotion, and concerns, and proactive conflict resolution.
- We strive to respect each individual and work to create a positive emotional climate for all learners, with sensitivity to differences in age, ability, background, language, culture, religion, and family structure.
- We aim to eliminate gender bias by using gender-neutral terminology, such as “friends” instead of “boys and girls” or “firefighter” instead of “fireman”, encouraging learners of all genders to explore the activities we offer, and focusing our affirmation on approach, effort, and accomplishment rather than appearance.
- We are committed to reaching out to people of different races, genders, ethnicity, and ability, and we strive to create an environment of inclusion that celebrates our differences and highlights our commonalities. Our program accepts children with special needs as long as a safe, supportive environment can be provided for the child consistent with the requirements of the Americans with Disabilities Act. For a complete description of Carnegie Mellon’s Commitment to Diversity, please see http://www.cmu.edu/diversity-guide/.

Because our mission is multifaceted, we aim to build positive relationships with all learning partners by appropriately balancing equity of care for the group with services tailored to individual needs. Our goal is to develop the school’s caring community for learning through broad participation and involvement in program improvement for all of our staff, families, and university partners.

PARENTS AS PARTNERS (7.A)

The Children’s School offers adult family members and other caregivers a variety of ways to become involved in the child’s school community, to participate in family activities, and to confer with the staff to build a strong bond between home and school (7.A.09). During the year, each teacher meets with parents to share information about the child’s school and home life. Regular communication is encouraged among families, caregivers, and educators so that multiple perspectives on the child’s development and interests can be used to enhance the child’s school experience (1.A.01). In addition to the detailed family handbook and easily navigable web site, we have scheduled parent meetings and conferences, regular whole school and classroom
newsletters, and frequent spontaneous interaction (7.B.01). A family bulletin board across from the library in the main hallway provides duplicate information, extra copies of forms, interesting articles, flyers about local family events and resources, and other parent resources (7.C.05, 8.B.03). Each teaching team provides a daily classroom update via email and their class web site in order to promote family communication at home about the school day. Finally, the Administrative Team provides reminders and other tips for families via email.

If any parents would benefit from translation services at conferences or for key documents, we can contact the International Student Office for assistance in finding a translator who is fluent in the relevant language (7.A.02, 7.B.02).

Adult family members can use the one-way-mirror facilities at any time or schedule classroom visits to observe their child in the program (7.A.11). Please register in the office and obtain a visitor’s badge before entering the school. If you want to talk with a teacher, please schedule a time either before or after school (8:00 to 8:30 am or 3:30 - 4:00 pm). All parents can observe their children in the outdoor classroom from the main campus level.

The popular family events, including Open Houses, the Family Festival, and the Whole School Celebration, offer the whole family a chance to participate in the child's school. In addition, many adult family members extend their involvement by volunteering in school wide and/or classroom activities. We ask that you complete a family involvement opportunities form and return it to the office by mid-September. We will use this information to arrange meetings, compose committees, and schedule activities according to parent preferences as much as possible. Committees support the school by coordinating the Family Social Organization events (such as a hay ride, skating party, family concert, etc.), repairing broken toys and equipment, planting and maintaining our school garden, and organizing events such as book sales, the monthly teacher appreciation meals, and the Whole School Celebration (7.A.12-14).

If you have questions or have experienced a problem at home or school, please approach the child’s primary teacher or one of the administrators directly (7.C). Recent potty-training efforts, changes in care-giving arrangements, the death of a pet, an extended absence of a parent, etc. can all cause changes in a child’s demeanor and behavior at school, so timely communication helps the educators respond most effectively to the child. We make every effort to dialogue with children and families in a positive manner to plan strategies, resolve issues, and provide assistance in a proactive and effective manner (3.F.03). Please also feel free to suggest ways that we can strengthen our partnership with you as together we seek to provide a high-quality learning environment for everyone in our school community (10.F.04).

All adult family members are invited to participate in the Children's School's annual program evaluation via a survey conducted in May (10.F.04), as well as to contribute to our continuous quality improvement via committees and fundraising efforts. Evaluation
results, plans and opportunities are highlighted in the parent meeting held prior to the school year (10.F.02) and updated as necessary via monthly newsletters thereafter.

All staff members, students, researchers, observers, interns, student teachers, student employees and volunteers must sign a Statement of Commitment to Confidentiality before entering our classrooms (see below). According to the NAEYC Code of Ethical Conduct:

“We shall not engage in or support exploitation of families. We shall not use our relationship with a family for private advantage or personal gain, or enter into relationships with family members that might impair our effectiveness working with their children.”

Accordingly, no private arrangement for childcare shall be made during the Children’s School hours of operation as this may interfere with a staff member’s job responsibilities, performance or ability to abide by the Statement of Commitment to Confidentiality. We strongly discourage our undergraduate staff members, volunteers or others actively involved in the classrooms at the Children’s School from babysitting or providing childcare for children and their families who are currently enrolled at the school. For that reason, we do not recommend staff members to families or distribute advertisements for childcare to our staff members.

Confidentiality (4.E.07)

Because the staff at the Children’s School works as a team, with every adult knowing and interacting at times with every child, all admissions, observations and other assessment data may be shared with all staff members. Information about family situations, special needs, and other sensitive issues is shared on an as needed basis. Student workers, volunteers, and other adults working within the school are only informed of such sensitive issues when they are a part of keeping the child safe, supporting the child’s inclusion, or when the information might impact their coursework. All adults working in the Children’s School sign the following confidentiality agreement.

“As an adult working, observing, conducting research, and/or regularly volunteering at the Children’s School, I may become privy to confidential information regarding children and families. I realize that all such information is strictly personal and confidential and, therefore, will only share such information within the confines of the Children’s School. I pledge to discuss the families, children, and staff for professional purposes only. I will also choose carefully whether to discuss children’s behavior within their hearing distance, doing so only when it is in the child’s best interest. When I encounter families, children or staff outside the school, I will be courteous but use discretion.

I understand that written authorization is required before disclosing any information regarding a child to an outside agency or individual. I further understand that any photographs I take while at the Children’s School are intended for authorized professional uses only; they may not be electronically shared over the internet, posted on social networking sites such as Facebook and Twitter, or electronically tagged in any way with individual names.

I know that confidentiality is an ethical obligation and that it is a requirement for my continued involvement at the Children’s School. By signing this statement, I agree to learn all aspects of the Children’s School confidentiality policy and practice them at all times.”
In addition, we require that families respect the privacy, not only of their child(ren), but of all other children and families. We encourage open, honest, informal, and frequent communication among educators and parents. However convenient, hallways, classrooms, or the outdoor classroom are not appropriate places for conversations about sensitive matters. A child’s teacher or an administrator may suggest a phone call or meeting to discuss concerns raised initially in regular conversation that would be more appropriately addressed privately. With regard to the images on the school websites and any photos or videos taken at school (e.g., during playground play dates, class birthday celebrations, etc.), families may only share photos that include their own child as the sole individual pictured (i.e., no other children, teachers, interns, etc. in the photo).

In accordance with Health Insurance Portability and Accountability Act (HIPAA) guidelines, official written records for each child are filed in the locked Educational Administrators’ office in the Children’s School and released only to the individuals listed above or those for whom parents sign a written release (7.C.08). These files include enrollment forms, final conference reports, health assessments provided by physicians, results of health screenings conducted at school after parent authorization, incident reports, reports of diagnostic assessments released to the school by parents, individual education plans, etc. Staff documentation of children’s behavior and development, including specialized records for children whose individual circumstances require extra classroom documentation are kept in classroom locations accessible to teachers but out of the reach of children and out of sight of classroom visitors. In addition, researchers follow ethical standards with respect to confidentiality of individual data as described above.
DEVELOPMENTAL OBJECTIVES (2.A.01)

Since 1968, the highly skilled Early Childhood Educators at the Children's School have nurtured young children's social, cognitive, and physical development. We have specified learning goals for 3, 4, and 5 year olds in each of the following domains.

1. **Self-Esteem & Independence** - encouraging each child's growing self concept and confidence, as well as increasingly independent self regulation and self care.

2. **Interaction & Cooperation** - promoting children's social skills for effective adjustment to school, group participation, classroom citizenship, and peer interactions.

3. **Communication** - facilitating comprehension and expression skills beginning with oral language (listening & speaking) and progressing to written language (reading & writing).

4. **Discovery & Exploration** - fostering a positive attitude toward learning through scientific and mathematical inquiry with varied materials to build strong concepts related to diverse themes.

5. **Physical Capabilities / Health & Safety** - giving children opportunities to develop small and large motor skills, healthy living habits, and essential safety practices.

6. **Artistic Expression & Appreciation** - cultivating each child's ability to express ideas and emotions through art, drama, and music and movement, as well as to appreciate the artistic expressions of others.

CURRICULUM and ASSESSMENT (2.A.02-06)

The educators developed the Continuum of Developmental Objectives to reflect our understanding of young children's natural developmental progression. Teaching teams use the six categories of objectives as a flexible framework for planning learning experiences to promote the growth of each individual child (3.F.01) rather than using a fixed curriculum guide. We develop our own plans to provide children with a variety of opportunities for learning and encourage broad exploration. We support children in doing as much for themselves as possible, given the time constraints of a part-day, part-year program. In addition, we strive to support a variety of social experiences by organizing our time and space to balance individual, pair, small group, and large group activities, making accommodations as necessary for children with disabilities and providing all children with access to semiprivate areas to play or work alone or with a peer (9.A.12). Staff members serve as coaches while children practice social skills involved in peer interactions, friendship formation, and conflict resolution. Throughout the day, we engage children in conversation, with extra support for peer conversation at snack and lunchtime (3.D.12).
Thematic Approach to Curriculum

The teachers prepare an engaging learning environment for exploring a theme, such as birds, artists, or transportation. We plan the themes for the year to include opportunities for integrating key areas of content, including life, earth and physical science, as well as social studies and the arts (2.A.10, 2.G.02a-c). Using the money from the materials fee, we choose a rich range of materials, including diverse technologies, to entice each of the children to engage in the thematic study (9.A.12). We use a group meeting time each day to set the stage for the investigation and introduce relevant concepts. Then the children pursue a variety of activities that reinforce the learning goals. We avoid commercial characters and prescribed products in favor of open-ended explorations that promote creativity and imagination. We also limit screen time to short periods of activity that is not otherwise possible in the classroom, such as child-controlled computer design or internet viewing of animals in their natural habitats. The educators monitor the activities, so that we may facilitate the children’s learning and challenge them at an appropriate level. Children’s explorations enrich their development of concepts related to the theme and strengthen their skills in all areas. We extend and apply their concepts by experimenting with various materials in the school, and they express their understanding by creating their own representations in a variety of media.

Explorations Enhance Skills

Through explorations, the children develop
• a sense of themselves as competent learners,
• strategies for collaborating with peers and adults,
• approaches to communicating their ideas verbally and visually,
• means of discovering new ideas about physical properties,
• skills for small motor manipulation of tools and materials as well as large motor actions, together with an awareness of health and safety practices, and
• means for expressing their creative ideas through drama, movement, music, and visual arts, as well as appreciating the ideas of others.

Assessment Plan (4.A.01-03)

Assessment is naturally integrated into the course of every day as ongoing teacher observation of group patterns and individual development is used to adjust the program to better support group and individual progress. Teaching teams meet weekly, typically on Friday afternoons, to identify children’s current interests and needs and then plan accordingly for the next week’s explorations (4.D.02). At times, these reflections indicate the need for altering the classroom environment, shifting the unit focus, trying new teaching strategies, etc. If concerns about individual children’s development arise and are not readily remedied via classroom adaptations, teachers initiate a dialogue with colleagues and parents to plan approaches to try at both home and school (7.C.).
Twice per year, the teachers combine these informal assessment techniques with more systematic assessment of each child relative to the school’s developmental objectives for the purpose of describing each child’s developmental progress. Teaching teams work together to conduct these systematic assessments, though the child’s primary teacher takes the lead in summarizing the findings. The process is typically collaborative, with the primary teacher drafting the report and then getting input from the teaching team, the gym teacher, the Extended Morning teachers, etc., as appropriate. These descriptions are shared with parents in writing. Fall conference reports for the 3’s and 4’s include narrative descriptions of children’s progress in all six of the school’s identified developmental objective domains: self-esteem & independence, interaction & cooperation, communication, discovery & exploration, physical capabilities / health & safety, artistic expression & appreciation. Because of the longer time kindergartners spend in school, the fall conferences are more detailed, including bulleted descriptions for each of the four component skills in each developmental domain. Spring conference reports for all children have this latter format (4.B.02). Teacher – parent dialogue during conferences strengthens our understanding of each child’s developmental profile and often leads to ideas for individualizing both educator and parent support of children’s learning, as well as plans for smooth transitions into the next level of Children’s School programming or to elementary school.

Occasionally, educators and/or parents identify the need for additional screening and referral for professional diagnostic assessment (7.B.04, 7.C.01-04). In those cases, educators and parents typically include the Director in the dialogue for the purpose of more precisely identifying the focus for screening / diagnosis and to review the resources available to children and families in our community, which depends heavily on where the family lives (i.e., within Pittsburgh city limits or not, within Allegheny County or not, etc.), as well as what type of health insurance the family has.

Because of the detailed discussion of child progress, conferences typically last 20 to 45 minutes and are not appropriate for children other than nursing infants to attend. Child care is not provided at the school during conferences, so parents should make other arrangements for their children. Many families share these responsibilities by arranging play dates or sharing babysitters.

**Assessment Procedures (4.B.01)**

Most Children’s School assessment is informal, with direct observation by multiple educators as the primary method. Teachers document observations in their own unique ways, though most record anecdotes, take photographs of constructions and interactions, and collect samples of the children’s artwork, journal entries, and other projects.

Because even young children are savvy enough, however, to avoid tasks in areas that are difficult for them and to rely on peers to support their performance when avoidance is not possible, Children’s School educators occasionally conduct more formal,
individual assessments focused on precisely determining what a child knows or can do. Whenever possible, these assessments are designed as typical classroom activities and are widely distributed in time. For example, a teacher might assess knowledge of letters and numerals by having the child be the caller in a bingo game played with peers (see Children’s School web site for a downloadable version of these assessments). Gross motor skills may be assessed by having children practice an obstacle course set up in the classroom or outdoors. With individuals, teachers often use puzzles or other manipulatives\(^1\) to check a child’s knowledge of shapes, counting ability, etc. All of these assessments are conducted within the regular program space and during the typical program hours. In cases where a child’s performance on these more formal assessments is not consistent with our informal observations, the assessment will be repeated, conducted by another educator, or conducted in one of the quiet research rooms, etc. so that the results can be verified.

Data from both informal and formal assessments are incorporated into the narrative sections of conference reports written by the child’s primary teacher in the fall and the spring (4.E.02). During the face-to-face conference reports, teachers and parents review the narrative about children’s progress and dialogue to create strategies to support the child’s next developmental steps both at school and at home.

Children’s School assessments and conference forms are sensitive to diversity in the following ways (4.B.01, 05). Assessments involve only activities that are familiar to the children, and every effort is made to eliminate verbal directions that might not be understood by a child with a language disability or limited English proficiency. Teachers may note in the conference report any aspects of development that cannot be fairly assessed because of the child’s language abilities. Expectations for age-level progress are routinely adapted for children with special needs at the level that qualifies them for the support of itinerant therapists or full-time therapeutic support staff, and narratives explain what the child can do independently as well as with adult support.

The Children’s School does not conduct any norm-referenced or standardized assessments of preschool or kindergarten children for comparison purposes (4.B.03). At present, we use the Ages & Stages screening tools within 30 days of a child’s enrollment to gather developmental observations from parents that help in determining whether to recommend that further professional screening should be initiated (4.C.01). Eligibility for special services is determined by diagnostic assessments conducted by professionals after referral by Children’s School Staff. Standardized assessments may be conducted as part of research projects at the Children’s School, together with novel assessments and task measures designed by the researchers. All researchers closely follow ethical standards for treatment of research data, so no individual scores are given

---

\(^1\) Manipulatives are physical objects that are designed to help young children learn concepts in a developmentally appropriate, hands-on way. For example, unit blocks are designed to help children learn the relationship between ones, tens, and hundreds as a foundation for understanding place value.
to the school, the teaching teams, or to the child’s parents. The data are in no way connected to the child’s school records.

**Uses of Assessment Results (4.D)**

Results of Children’s School assessments are primarily used to shape the current year’s program planning and to discuss individual children’s developmental progress with parents so that we can work together to best support each child’s growth. In addition, the group results impact the school’s quality improvement process via each teaching team’s annual evaluation and the whole school annual evaluation, both of which are conducted each May in preparation for enhancements implemented for the next school year (10.B.07, 10.F.02).

Each fall, we offer a staff-parent discussion related to general school choice issues among public, private, parochial, and charter options, together with individual consultation related to choices for specific children (7.C.05-07). If parents initiate private elementary school applications for their children, they will be required to provide recommendations from the Children’s School. The Children’s School staff members are not permitted to complete the rating scales typically requested by the local private schools in the Pittsburgh area. Instead, when given a written request for recommendation by the parents, an Educational Administrator prepares a letter to the school indicating our policy and attaches a copy of the most recent conference report. If several months have passed since the conference, an Educational Administrator will first ask the primary teacher to check the report to determine whether there have been significant changes. If there have, then the teacher will prepare a revised conference report to be sent to the elementary school, with a copy given to the parents.
SCHOOL HOURS

Three Year Olds (Monday through Thursday)
Morning Session: 8:30 AM - 11:30 AM
Afternoon Session: 12:30 PM - 3:15 PM

Four Year Olds (Monday through Friday)
Morning Session: 8:30 AM - 11:30 AM (M-F)
Afternoon Session: 12:30 PM – 3:15 PM (M-Th) 8:30 - 11:30 AM (F)

Preschool Extended Day Program (Monday through Thursday)
Morning Session: 11:30 AM to 1:00 PM

Kindergarten (Monday through Friday)
8:30 AM - 2:30 PM (M-Th) 8:30 AM - 12:00 PM (F)

ORIENTATION FOR CHILDREN

The entry process is carefully planned to make the children’s first days of school as reassuring as possible (10.B.14). The child’s first school experience is often a visit with a parent or caregiver to become familiar with the space, the teacher, and other members of the school community. After that, the scheduled phasing-in days involve only half of the class at a time, with the teachers focusing on helping the children get to know each other, become familiar with the space, and learn the classroom routines, including the transition to the Extended Day Program for participating children. Parents should plan to be available during these days in case the child is not yet ready to separate. Even if the child separates quickly, we suggest that parents observe from the booth or get a cup of coffee in the office so that we can update you on the child’s adjustment. The regular school schedule begins during the first or second week of school. For most children, this means attending during the regularly scheduled hours and following the regular greeting and dismissal process. Parents and teachers may collaborate on alternate plans for children whose separation requires a more individualized approach. For children who start school at other points during the year, we develop a unique phasing-in program.

Once the regular schedule begins and throughout the year, it is important for the children to arrive promptly so that they can participate fully in the day’s activities. The start of the day often affects the child’s whole experience. Being picked up on time is equally important. Young children need the security of knowing that they, too, will be picked up when the other children are going home. For this and reasons related to staffing, picking up your child on time is essential. If you should arrive early to pick up your child, please park in a visitor’s space and use the alternate entry and exit route near the parking lot dumpster. Please send a written note with your child to inform the teacher of changes in your dismissal arrangements. For your convenience, we have supplied a set of “Parent-to-Teacher” notes. Please call the school office if you need
additional notes. Children will not be allowed to leave the school with unauthorized adults.

**ROUTINES AND TRANSITIONS (3.D.01)**

**The Preschool Day**

*Greeting*: Teachers greet children at their cars and escort them into the school.

*Free Choice*: After following the arrival routine, children choose from a variety of activity centers and play areas in their classrooms.

*Group Time*: Children meet as a classroom community with their teacher to discuss the school day and learn about key concepts related to the monthly theme. Each teacher also plans music, movement, and other skill building activities to target specific developmental needs of the group.

*Activity Time*: Children choose from a range of independent and/or teacher-directed activities from a variety of areas such as arts, blocks, technology, cooking, dramatic play, games, writing center, library, science center, puzzles, and sensory tables.

*Snack Time*: Children meet with their teachers for bathroom time, snack time and story time. (5.B.16)

*Gym time/Outdoor Time*: One group of children has a focused gym class each day. This activity replaces the outdoor time and is typically conducted in one of the CMU gyms. Children go outside every day except in extreme cold or pouring rain. Children choose from a wide variety of activities including sand play, mud kitchen, tricycle riding, dramatic play, nature exploration, water play, block building, climbing, sliding, and other large motor games.

*Dismissal*: Teachers escort the children to the dismissal area and help them into their cars.

**Extended Morning Program**

- The extended morning program is for children enrolled in the morning preschool program. The children bring their own lunch to eat at school (5.B.16).

- The extended morning program begins at the end of the children’s regular program. The extended program varies on a daily basis to accommodate more extensive projects than are possible during the regular preschool program. The children participate in art, technology, cooking, large motor, music, and science activities.
The Kindergarten Day

*Greeting:* Teachers greet children at their cars or buses and escort them into the school.

*Free Choice:* After following the arrival routine, children choose from a variety of activity centers and play areas in their classroom.

*Group Time:* Children meet with one of the teachers in the group area to discuss the daily news, calendar, weather, and have an introduction to the key concepts related to the current curriculum theme.

*Activity Time:* Children move among different centers to complete specific language arts, math, science, art, technology, and other theme-related activities. On Friday mornings, children split into two groups that each go for a focused gym class while the others engage in activity time.

*Lunch/Outdoor Time:* Children bring their own lunch and sit at different tables, which change monthly. Then, the children go outside to play except in extreme cold or pouring rain. Children choose from a wide variety of activities including sand play, mud kitchen, water play, block building, tricycle riding, dramatic play, nature exploration, and large motor experiences. In case of inclement weather, appropriate gross motor activities are provided with supervision for the children indoors (5.A.06).

*Group Time:* Children meet with one of the teachers in the group area to play a group game, sing songs, share experiences and read a story.

*Journal Time:* Children make a daily entry in their personal journal. Depending on their skill level, children may draw, copy words, dictate a story, or use invented spelling to express their ideas.

*Activity Time:* Children move among activity centers, work on extended projects related to the theme, and play in the block area, housekeeping area, or sand table.

*Dismissal:* Teachers escort the children to the dismissal area and help them into their cars or buses.

NOTE: Teachers will provide specific schedules prior to the start of school each fall.

**Bus Service for Kindergarten**

Bus service for Kindergarten students may be provided by the school district in which the child resides, depending on the district policies. The Children’s School staff members make every effort to communicate effectively with the bus company professionals to support their work with our children and families, but we have no authority regarding schedules, stops, personnel, etc.

*Will my child need a car seat for the school bus?* The Pittsburgh Public School District policy requires that families provide car seats for use on school vans but not on mini-buses.
What do I do if my child will be absent or not need bus service on a given day? Parents are responsible to communicate directly with the specific bus company regarding their child’s transportation, absences, changes in schedules, or any other concerns they may have. Please make every effort to follow a consistent routine. Changes in schedule impact everyone on the route.

What do I do if the bus is late? If the school bus is late or does not arrive, please contact the bus garage first for more information. Then, please notify the Children’s School at 412-268-2199. If the problem is persistent, contact your school district transportation office.

What do I do if my school district issues a school delay or closing? Please be aware that the school district providing your bus service may issue a weather related delay or closing while the Children’s School remains open. This information is broadcast via local television or radio stations. Families may choose to bring the child to school or follow the school district busing plan.

Snack is typically prepared by our staff, unless a cooking activity is planned for the children. The snack menu is posted in the kitchen and on the parent bulletin board, as well as being distributed with the monthly newsletter (5.B.15). Staff members regularly engage in conversation with the children during snacks and meals. (3.D.12).

Naps are not a regular part of our program, though children who are tired can come to the office for a nap on our couch if necessary.

Educators and Transitions

We make every effort for all children to know and be known by all adults in our open school environment so that they are comfortable interacting with and seeking assistance from any adult. Each child is assigned to a primary teacher, but he or she becomes familiar with all teachers within the teaching team, with the full-time substitute and educational intern and with the administrative team. This way there are several educators who can effectively substitute when a teacher is absent (10.B.11, 13).

Because our program runs on an academic calendar, children typically stay in the same class with the same teachers from September through May (10.B.14). If they participate in the optional summer camp program, the children transition to a multi-age group. When making group assignments, we endeavor to foster continuity either with a team member from the recent school year or with the teacher that the child will have during the next school year. All children transition to a new primary teacher when they move to a new level of programming. At that time, we use the phasing-in process described in the orientation section to ease the transition.
THE CHILD'S BELONGINGS

For your child's safety, dress your child with proper shoes - sturdy, closed-toe, rubber-sole shoes (no flip-flops, crocs, or clogs). **Sneakers are the preferred footwear and are required for activities in the CMU gym.** For your convenience, please choose washable clothes. You may wish to send your child to school in layers (i.e., a sweater over a short-sleeved shirt) so that the child can self-adjust to the temperature of the room. Send an extra change of clothing for your child on the first day of school in case a child's clothes become wet or soiled. Please include tennis shoes, shirt, slacks, socks, and underwear and **label all clothes** with your child's name. Remember to update this extra set as the weather changes and as your child grows!

Provide adequate outer clothing for your child and label all items. We spend time outside every day, except in extreme cold or pouring rain. Our outdoor classroom and reflection garden both have areas of sun and shade, so providing clothes to layer for comfort is essential (5.A.07). In the winter, send boots, gloves, hats and snow pants. On snowy days, if children are not wearing appropriate outdoor clothing, the staff will limit their snow play.

Pets are not permitted at school. Encourage your child to bring only books or CDs that are clearly labeled to share with the other children. Your child should leave toys, costumes, or other objects at home unless they have been approved by a teacher. Special toys often are mislaid and/or picked up by other children, causing upsets and disagreements that could have been avoided.

THE CHILD’S SIBLINGS

Our NAEYC accreditation and Pennsylvania licensing are limited to preschool and kindergarten children. Our staffing is set for the number of children in each class, and the classroom arrangement, materials, and routines fit the developmental level of the class. For all of these reasons, we cannot accommodate family requests for children’s siblings to join in classroom or outdoor activities. Siblings may accompany a parent or other caregiver to the classroom at greeting or dismissal time. We encourage siblings to participate in celebrating the birthday of a brother or sister, provided that a parent or other caregiver is present to supervise the child.

We schedule several evening events during the year, such as Open Houses and the Family Festival, for families to attend together. Our annual Whole School Celebration is a wonderful opportunity for families to interact with each other and the staff. Also, Family Social Organization (FSO) events are often designed for the entire family.

Educator / Parent Discussions are typically scheduled during times that allow us to provide child-care in the classroom designed for the youngest children. For parent meetings and conferences that involve the whole staff, we have neither the space nor the staff to provide child care. Please make other arrangements for all of your children during these events so that all staff and adult family members can give their full attention to discussing their important partnership.
FOOD BROUGHT FROM HOME

We are a NUT FREE facility. Please do not bring or send any food containing peanuts or tree nuts to the school. Families provide lunches in labeled lunchboxes for children in the Extended Morning and Kindergarten programs. Please send balanced meals in age appropriate quantities for your child.

</tbody>
</table>

Since we do not refrigerate children’s lunches, please use cold packs to keep items at appropriately safe temperatures until lunchtime. When necessary, the teachers will provide supplemental food from our nutritious snack items.

Please do not bring food or candy from home to share or to send home with the children. Because of the high frequency of food allergies, we typically prepare special snacks at school (see below). Food prepared at school will be properly planned, prepared, and portioned in accordance with the ServSafe training that is provided by our university dietician. Families of children with dietary restrictions should consult with administrators to develop an individualized plan. Children with dietary restrictions may have food stored at school for them. These foods should be brought with clear labels indicating the child’s name, the date, and the type of food. Expired food will be discarded.

Food Allergies or Restrictions

Food allergies can be life threatening. If your child has a food allergy or restriction, please contact the Main Office. You will need to complete a form that will ask you for an action plan completed by the family physician for emergency care for the child, as well as to list appropriate food substitutions. This form must be updated at least annually.
HOLIDAYS AND BIRTHDAYS

At the Children’s School, holidays are viewed as educational opportunities that give us the chance to learn about our diverse school community (3.F.03). As part of our emphasis on family identity and respect for diversity, we encourage children to talk about their family traditions, and we share stories and songs related to the meaning of holidays. We plan age-appropriate activities to involve the children in preparing for simple school celebrations and to help them contribute to family events (e.g., basic cooking, making gifts, and so forth). We limit our school celebrations to very brief spans of time (typically one day), attempt to maintain our regular school routine, and, as always, are ready to provide extra attention and comfort as needed. Because the children may prepare their own special snack related to holidays and because many children have dietary restrictions (especially related to candy and other sweets), please do not send any food as gifts for children. In all of these ways, we can create meaningful celebrations with the young children in our educational context.

Birthday celebrations for young children at school can be a special time for the child to share with friends at school and, when possible, for families to join the celebration. Please contact your child’s teacher when your child’s birthday is approaching, in order to plan the timing of the celebration to best fit your schedule. For birthdays during vacation time, we celebrate a "half-birthday" as close to the half-birthday as possible. Because of the restrictions on foods brought from home for sharing with classmates, teachers will consult with the birthday child to choose a nutritious birthday snack that will then be prepared by a group of children in the class. We avoid foods with high sugar content, food additives or highly processed food, and we plan carefully around any food allergies that children in the group may have. Nutritious snack alternatives include bagels, muffins, pancakes, fruit, and frozen yogurt. Families are welcome to come enjoy the treat and often also read a book to the class. If you plan an additional birthday celebration outside of school time, please mail invitations from home unless the entire class is invited.
FIELD TRIPS (8.B.02)

On Carnegie Mellon's Campus

We are fortunate to have access to many interesting facilities on the Carnegie Mellon University Campus and in Schenley Park. To take the best advantage of the last minute opportunities that sometimes arise (e.g., hot air balloons on Flagstaff Hill or a robot demonstration), we ask parents to sign a permanent permission slip for on-campus and Schenley Park field trips. Teachers always notify the school office before taking children out of the school, always walk to their destination, and take walkie-talkies / cell phones and first aid / emergency backpacks with them.

Off-Campus Trips

Occasionally, we schedule field trips that require longer walks (e.g., Carnegie Museum) or transportation (e.g., a theatre performance off campus). Parents are required to sign a permission slip for each trip individually and may be asked to pay a small fee for admission. At all times, we maintain a ratio of one adult to three children for preschool trips or one adult to four children for kindergarten trips. This ratio does not include student employees who may attend as extra helpers, though it can include student teachers. Siblings are not invited to attend field trips. The children are all assigned in advance to specific adults and all wear nametags with the school name and phone number on them.

Adult family members are also recruited to drive for field trips because our teachers are not allowed to transport students in their vehicles. We are required to verify that all drivers have a valid license, as well as current car insurance. At all times when transporting children, all passengers are required to use approved child and adult safety-restraint devices in accordance with the manufacturer’s instructions. For kindergarten trips, we occasionally use a hired bus, in which case adults and children are required to follow the bus company’s safety procedures. For field trips, we use the dismissal and greeting procedure for the Children’s School parking lot to pick children up from and return them to the school (see Greeting, Dismissal, and Parking). Occasionally, because of time constraints, we may greet or dismiss children at the field trip destination. In all cases, plans and relevant maps are provided along with the field trip permission form.
HEALTH AND SAFETY GUIDELINES (9.C.08, 10.D.01)

At all times, health and safety are top priorities at the Children’s School. Each individual’s vigilance regarding health and safety issues contributes significantly to our effectiveness. Always assume that you are the only one who notices a problem or potential problem and bring it to the attention of a staff person.

Staff Responsibility

Staff members are responsible for maintaining a healthful environment (5.C.01-04). We begin with our own health by submitting annual health appraisals and following even more strict illness exclusions than those required for children. All staff members submit criminal record and child abuse clearances as part of the employment process, as well as having periodic FBI background checks. We participate in an annual pediatric first aid / CPR class (5.A.03), a Bloodborne Pathogens class, the 5 R's of Medication Administration and Epi-Pen Use in Childcare, a fire safety class, and a review of our emergency procedures. Each classroom has a well-equipped first aid kit, as does the bathroom and outdoor shed (9.C.10). Each teacher has a backpack with basic first aid and emergency information that is used for all field trips, with additional supplies for emergency situations. We practice a variety of evacuation and lock-down drills, as specified in our Emergency Action Plan, in a serious but non-dramatic fashion with the children at a rate of one per month (2.K.04). Members of the Administrative Team conduct monthly health and safety checks of the entire facility, and we work with staff and university personnel to rectify any hazards identified. Staff members are responsible for daily checks of their classrooms and shared spaces for hazards such as missing safety covers on outlets, elevated water temperature in the bathrooms, insect nests or tripping hazards in the outdoor classroom, etc.

The Children’s School is a smoke-free environment (9.D.06) with a safe water supply from the Pennsylvania Water and Sewer Authority (9.D.02) and heating, ventilation, and cooling systems maintained in accordance with national standards. Carnegie Mellon’s Environmental Health and Safety Department has abated all asbestos and lead from the Margaret Morrison building and does periodic checks for other environmental hazards (10.D.02), as well as diligently monitoring the status of our safety equipment and using an integrated pest management program (9.D.08).

With the help of the university cleaning staff, we follow NAEYC’s frequency table for cleaning and sanitation throughout the school, including toys and water play areas (5.C.01,03). All staff members follow standard precautions to minimize spread of infectious disease (5.C.02) and store hazardous materials in locked cabinets (9.D.09). We follow parent and/or health professional recommendations regarding children who have allergies, and we limit classroom pets to birds, fish, amphibians, worms, insects, and small mammals with semi-annual vet checks. We use the Child Care Weather Watch chart to determine safe temperatures for outdoor play, as well as subscribing to an air quality alert system that provides notices of hazards in our area (5.A.07, 9.D.03).
Our outdoor classroom always has shade available in the pavilions and play structures. During camp, when children are outside for a longer time and wearing bathing suits, we will apply sunblock with a minimum UVB and UVA protection of SPF 15 if it is authorized in writing and provided by the family (5.A.07). At this time, our area is not designated by health authorities as high-risk of insect-borne disease; but if that changes, we will use daily application of repellent containing DEET when parents provide written authorization and appropriate repellent (5.A.07).

Because hand washing is the #1 preventive measure to avoid the spread of disease (5.A.09), we explicitly teach, scaffold, and monitor hand-washing procedures that involve the use of liquid soap and running water, with vigorous and thorough rubbing for at least 20 seconds (the length of the alphabet song, sung twice), followed by paper towel drying. We and the children wash our hands upon entry, before snacks and meals, before and after food preparation, before eating and prior to serving food to children, after toileting and diapering, after contact with bodily fluids, after play in the water table or with infants and toddlers, and after re-entry from the outdoor classroom, as well as after any messy activities or contact with pets. Adults also wash their hands after eating and prior to serving food to children, assisting with toileting, handling garbage or cleaning, and before and after feeding a child or administering medication. Visiting family members are asked to wash their hands upon entry to the school.

The Children’s School contracts with outside agencies to provide vision screening and hearing/speech/language screening annually (4.C.01). Participation in this optional service requires permission from a parent or guardian, as well as a small fee determined by the agency.

**Staffing & Supervision**

We maintain required staff:child ratios at all times and better ratios most of the time (10.B.12).

- Minimum of 1:8 for 3’s Programs  
  (though we aim for 1:6 with undergraduate support)
- Minimum of 1:10 for 4’s Programs  
  (though we aim for 1:6 with undergraduate support)
- Minimum of 1:12 for Kindergarten  
  (though we aim for 1:8 with staff and undergraduate support)

These ratios are applicable both indoors and outdoors. Field trip ratios are 1:3 for preschool and 1:4 for kindergarten. Wading pool ratios are 1:5 for both preschool and kindergarten.

At any time when children are present in the school, there are at least two adults present in each classroom suite, at least one of which is a staff member (i.e., the other could be a student employee or intern). Staff members, as a group, supervise preschool children primarily by sight (3.C.04). Classroom space is designed so that
there are no areas of the room where children can hide. Supervision by sound is permissible for short intervals, such as when children go to the children’s or private bathroom from the classroom. Once kindergarten children are comfortable with the spatial layout of the school, they are permitted - after teacher notification - to go to the restroom, run errands to the office, or go check on a younger sibling independently (i.e., out of sight and sound supervision of the kindergarten staff but within the security system area 3.C.05). Other adults in the school will provide support as necessary (e.g., a preschool staff member could help a child in the restroom or an office team member could help a child in the hallway), and the kindergarten team monitors the time a child is gone and checks on the child if he or she does not return to the classroom promptly.

Illness and Injury (10.D.09)

Staff members greet children at the beginning of the day, being watchful of their appearance as they enter and throughout the day. Children should report to school in good health and ready to participate in school activities.

Young children, however, may experience illness during school hours that interferes with their ability to participate in group activities. In the event of an illness that interferes with group activity, the child will be excluded from the group and cared for until a parent, legal guardian or caregiver arrives to transport the child home or to a medical professional.

Young children will also experience falls or sustain “bumps” during the course of a day, especially in the outdoor classroom or in gym class. Usually, these situations are handled with simple comfort, a drink of water, or a sympathetic Band-Aid or ice pack (i.e., not necessary yet comforting). When a child sustains a cut, bruise, or other injury, staff members will provide first aid care appropriate to the injury or illness treatment according to procedures specified in our pediatric first aid training (5.A.03). A parent, guardian or caregiver will be notified following first aid care. An incident report will be completed by staff within one day. Copies of the incident report are kept in a central office file, the child’s file, and given to the family.

In the event of serious accident or illness, staff members will provide first aid care appropriate to the injury or illness treatment according to procedures specified in center pediatric first aid training (5.A.03), which may include the additional prompt action of contacting Carnegie Mellon Security and EMS personnel. Parents or legal guardians will be notified. If necessary, a staff member will accompany the child to the hospital preferred by the family, either in a campus security vehicle or ambulance. In these cases, center incident reports are supplemented by the EMS reports.

Family Responsibility

As part of the enrollment process, parents must complete an Emergency Information Form and give permission for staff members to administer basic first aid to their child.
and to contact Carnegie Mellon EMS for more advanced care. Review of this emergency information is required every semester, typically during routine child conferences. Parents or guardians should contact the school any time there is a change in the emergency contact information. Additional consent forms for research participation, on-campus / Schenley Park field trips, multimedia recording, wading pool use, and sunscreen application are also required. Parents of children speaking English as a second language are asked to complete a form detailing the children’s level of proficiency and then invited to dialogue with teachers regarding strategies to assist the child’s transition as necessary (7.A.02, 08).

Health Assessments
Prior to the child’s first day of school, parents are required to submit a current health assessment of the child, including either proof of the recommended immunizations or a signed statement indicating that the family has objections to immunization. Thereafter, parents must submit an updated form after the yearly well-child checkup (10.D.05).

• Immunizations
Immunizations are required according to the current schedule recommended by the U.S. Public Health Services and the American Academy of Pediatrics (www.aap.org). An Educational Administrator subscribes to the Center for Disease Control website and receives an alert message when there are updates to the recommended immunization schedule. Our state regulations regarding attendance of children who are not immunized due to religious or medical reasons are followed. Unimmunized children are excluded during outbreaks of vaccine preventable illness as directed by the state health department.

• Physicals
Routine physicals are required according to the current recommendations of the American Academy of Pediatrics (www.aap.org). A copy of your child’s physical should be received before your child begins the program. Families are responsible for assuring that their child’s physicals are kept up-to-date and that a copy of the results of the child’s health assessment is given to the program.

• Allergy Prevention and Special Health Care Needs
Families of children with allergies or special health care needs must complete a “Care Plan for Children with Allergies, Medical Conditions, or Dietary Restrictions” giving guidelines appropriate to the child’s needs, with detail regarding provision and storage of special foods (labeled with the child’s name and date), necessary adaptations of activities or environment, responses staff should take in the event of an allergic reaction, and any necessary staff training (5.C.04). With parental permission, a list of the children’s allergies will be posted in the classrooms and kitchen. We are trained to familiarize ourselves and consult the list to avoid the potential of exposing children to substances to which they have known allergies. Parents of children with other special needs should contact an administrator for guidance regarding necessary documentation and advance planning with the staff.
• Medications
All medications should be handed directly to a staff member. All medications must be accompanied by a complete “Medication Authorization Form” with specific instructions for administration (5.A.11). Medications should never be left in the child’s locker, backpack, or with the child to administer on his or her own.

When medication administration is necessary for your child during school hours please assure:
1. The child's medication is brought in a child-resistant container.
2. The original prescription or manufacturer's label clearly indicates the name and strength of the medicine.
3. The medication is correctly labeled with the child's first and last name (including over-the-counter medication).
4. The expiration label on the prescription medication covers the period when medicine is to be given.
5. All prescription medication labels include the name and phone number of the licensed health care professional prescribing the medication.
6. A copy of the Child’s Health Record is on file with the school and is current.
7. Instructions are clear for the dose, route, procedure and time for administering medication.
8. Instructions are clear for storage (i.e., temperature) and assure that the medication can be safely stored at school according to the instructions.
9. The child has had at least one previous trial dose with no adverse side effects.

Sick Children

The Children’s School community relies on the adult family members’ thoughtful assessment of each child's health before sending him or her to school. Even if your child “begs” to come to school, please keep him or her at home if any of the following symptoms are evident. Some of the following symptoms may indicate the beginning of an illness that might be easily communicated to other children, while other symptoms are indicative of illness that will require your child to remain home.

• Child does not feel well enough to comfortably participate in usual program activities (i.e., behavior change, fatigue, pain)
• Child has an illness that poses a risk of spreading to other children
• Child looks or acts ill
• Fever (Oral Temperature above 100°F)
• Uncontrolled, unformed stools that cannot be contained in a diaper/underwear or toilet
• Diapered children with stool frequency that exceeds 2 or more stools above normal frequency for that child
• Blood or mucus in stools not explained by dietary change, medication or hard stools
• Vomiting (green or bloody) 2 or more times during the previous 24 hours unless caused by non-communicable condition and there is no danger of dehydration
• Abdominal pain continuing for more than 2 hours or intermittent abdominal pain
• Mouth sores with drooling
• Rash with fever or behavior changes, unless a health professional has determined it is not caused by a communicable disease
• Pinkeye (red or pink, itchy, painful eyes with green or yellow eye discharge that may crust over during sleep)
• Impetigo, until treatment has been initiated
• Strep throat, until 24 hours after treatment
• Head lice or nits
• Scabies until treatment has been initiated
• Chickenpox (varicella) until all lesions have dried and crusted (usually 6 days after onset of rash)
• Rubella, until 6 days after the rash appears
• Pertussis (Whooping Cough), until 5 days of appropriate antibiotic treatment
• Mumps, until 5 days after onset of gland swelling
• Measles, until 4 days after onset of rash
• Hepatitis A virus infection, until one week after onset of illness or jaundice if the child’s symptoms are mild or as directed by the health department
• Any child determined by the local health department to be contributing to the transmission of illness during an outbreak

Children who have been ill may return when:
• Child is able to comfortably participate in usual program activities
• Child does not compromise the ability to care for the health and safety of the other children in the group
• Child is free of fever for 24 hours
• Child is free of vomiting and diarrhea for 24 hours unless caused by non-communicable condition and there is no danger of dehydration
• Child has been treated with an antibiotic for 24 hours when antibiotics are prescribed
• Child is free of open, oozing skin conditions and drooling (not related to teething) unless:
  o Child’s physician provides a written statement indicating that the child’s condition is not contagious
  o Involved areas are covered completely by a bandage without seepage or drainage through the bandage while the child is in care
• Child has a reportable communicable disease but a written statement is provided by the child’s health care provider stating that the child is no longer contagious and may return to group care

Please the school at 412-268-2199 as soon as possible when your child will not be in school, either because of illness, appointment, vacation, etc. Please notify the main office as soon as you become aware that your child has contracted a contagious condition or disease so that we can notify other families and staff members who might be affected.
GREETING, DISMISSAL AND PARKING (10.D.06)

Margaret Morrison Visitor Lot
The Margaret Morrison Visitor Lot is off Margaret Morrison Street, beside our building (please see the attached map). Please park in one of the spaces in the lower lot marked with a “V” for visitor. The spaces in the upper lot marked with an “S” are for staff and the three “L” spaces are for the Psychology Department Laboratories.

Parking
Included with your family handbook are the new 2016/2017 Parking Permits (please do not use last year's permit). This permit is for "short term" parking and must be displayed on your car's dashboard when you visit the Children's School. If you plan to stay all day (longer than 2 hours), please come to the Children's School office for a one day "long term" permit. Carnegie Mellon parking tickets are expensive. The Children's School cannot “fix” parking tickets.

If you are coming to the Children's School for a conference, birthday snack or just to visit, you may park in our lot. There are only eight “V” or Visitor spaces available for families to park in the Margaret Morrison Visitor Lot, so do not park there for other campus errands. Please use the pay-as-you-park Garage on Forbes Avenue if there are no “V” spaces available. There is additional parking on campus for evening and late afternoon meetings. Most university parking lots are open to the public after 4:00 PM. Never park behind Donner Hall, which is a private lot 24 hours a day.

Greeting and Dismissal
Please stay in your car. The teacher will either get or deliver your child from/to the car. Please place your child’s car seat in the back seat, so that when you pull up to the door the child is sitting on the side closest to our building, under the awning. Do not allow your child to get out of the car seat while you are in the greeting or dismissal line. The Family Name Card found in your handbook is for the front dashboard. Clearly displaying this sign will help the teachers to quickly identify your car, thus making dismissal a smooth process. If you would like to park and walk your child into or out of the school, please use the parent entrance located near the visitor parking spaces. For safety reasons, do not walk through the parking lot by the awning while we are greeting or dismissing.

If you arrive at school late, please walk your child into the classroom. If you are late picking up your child, you may park in the Margaret Morrison Visitor Parking Lot and come into the school. Please come to the school office where your child will be waiting and sign the “Late Dismissal” book.

Please be patient and courteous while driving in our parking lot. Please drive slowly and refrain from passing. It is difficult to get in and out of parking spaces while greeting and dismissal are occurring, so please take your time and attend carefully to the location of other cars. In order to avoid long lines and traffic “jams”, please drop off and
pick up your child(ren) at their assigned times. If you arrive early to pick up your child, please wait in a visitor parking space until it is time. Otherwise you may be in the “wrong line” (e.g., afternoon preschool greeting and not extended morning dismissal). If we work together, then the system will run smoothly for all!

Preschool Program
The children in the morning three-year-old and the morning younger four-year-old groups as well as all afternoon preschool groups will be greeted and dismissed under the awning in the Margaret Morrison Visitor Lot. The children in the older four-year-old group will be greeted at the rotunda area in the front of the Margaret Morrison building and dismissed under the awning.

Greeting Schedule
Morning Sessions: 8:30 AM Three and Four-Year-Olds
Afternoon Sessions: 12:30 PM Three and Four-Year-Olds

Dismissal Schedule for Preschool Only
Morning Sessions: 11:30 AM Three and Four-Year-Olds
Afternoon Sessions: 3:15 PM Three and Four-Year-Olds

Dismissal Schedule for the Extended Morning Program
The extended morning program dismisses from the same area.
Extended Morning: 1:00 PM

Kindergarten Program
The children in the kindergarten and older four-year-old group will be greeted at the rotunda area in front of the Margaret Morrison Building. Kindergartners are dismissed in the same area, but older 4’s are dismissed from the awning area in the parking lot.

Greeting/Dismissal Schedule
8:30 AM Teachers Greet in front of the Margaret Morrison Building
2:30 PM Teachers Dismiss in front of the Margaret Morrison Building

On Fridays Only: The teachers will dismiss at 12:00 PM in front of the Margaret Morrison Building.

PLEASE do not bring children to school early, because teachers need time to prepare their classrooms and to take a break between morning and afternoon programs.
CAR SEATS (10.D.06)

So that teachers can focus their full attention on the children and keep their hands free for assisting them, we ask that adults who need to move car seats from one car to another (for example, when a parent brings the child but a nanny takes the child home) carry and install the car seats themselves. To make this a smooth process, families who need to make car seat switches should park in the Children’s School Lot and walk the child and his/her car seat into or out of the school.

Injuries suffered while riding in cars are the number one preventable cause of death in young children. Here are guidelines to follow to keep your child safe in the car:

- Never hold a child in your arms or lap while traveling in the car.
- Please do not take children out of seatbelts/car seats while waiting in the greeting or dismissal line.

Please note that Children’s School Staff members are not permitted to violate these regulations by buckling a child into an improper position or device.
THE SECURITY SYSTEM

Our security system has two goals: (1) to keep all children safely inside the school and (2) to allow entry only for people who have Children’s School business. Cameras mounted above the interior doors allow visual confirmation of visitors requesting entry, as well as anyone leaving the school. Adult family members may enter and exit the Children’s School through the two main corridor doors by pressing the code on the keypad (we will give you this number) and then the * key. In keeping with our first goal, please do not allow your child to know the code.

The two main corridor doors are fire exits, so people can exit without using the security code. But, the alarm will ring if you do not use the code. To avoid the alarm ringing unnecessarily, please remember to enter the security code and press the * key before you leave the school.

The two doors on the tennis court side of the building are emergency exits only. Please do not use them as exits when the doors are closed.

CHILD RELEASE AND OBSERVATION (7.A.11)

A child’s parent(s) and/or guardian(s) must provide a list of adults to whom the child can be released (10.D.06). Any of these adults may observe the child at school at any time during the program’s regular hours of operation. We request that these adults follow the procedures listed below when observing at the Children’s School.

- Register in the Office upon arrival to get a Visitor Pass and sign out prior to departure so that we can contact you in the event of a phone call, emergency, etc.
- Observe from the observation room or observation window whenever possible.
- Children’s behavior is often significantly affected by a parent’s presence. In addition, repeated reunions and separations can be difficult for young children, especially at the beginning of the year.
- When in the classrooms, remain as unobtrusive as possible, making every effort not to disrupt the activity in progress.
- Please turn off your cell phone when entering the preschool or kindergarten classrooms, including the observation booth.
- If you want an opportunity to talk individually with a teacher, please make an appointment to do so during a time that the teacher can meet with you privately.

Our goal is to ensure that all children are in safe hands as we release them to parents, guardians, or caregivers at dismissal. On rare occasions, educators may be faced with the delicate situation of wondering whether the person picking up the child is in some way impaired and therefore an unsafe caregiver for the child. If such a concern arises, an educator may ask if there are other arrangements that can be made for the child’s care and transportation.

---

2 Parents can only be excluded when a court of competent jurisdiction has limited the parental right of access to the child and a copy of the order is on file at the facility and with the Carnegie Mellon Police.
BEHAVIOR GUIDELINES (1.E, 1.F)

The Children’s School environment, schedules, routines, activities, etc. are all designed to foster positive behavior management. All staff members guide and support children throughout the day as they gain control of their bodies, learn to use language to communicate needs, practice persisting when frustrated, take turns, and play cooperatively with peers. Our rules and expectations are designed to help children learn to manage their behavior for effective interaction and cooperation. All staff members guide and support children by clearly communicating in a positive manner and tone. For example, "Let's keep the sand in the sand table so that we have a lot to pour." Typically, the children are eager to act appropriately and are recognized for doing so. We design activities that are age appropriate in both task and duration to maximize positive interactions. Our teachers also carefully monitor the children's activities to anticipate and diffuse problems before they begin. A child who is losing interest in one activity or getting too loud may be redirected to another area that can spark renewed engagement and positive behavior (3.B.05, 3.B.06, 3.B.12).

Basic Behavior Expectations at the Children’s School (3.B.05, 3.B.06)

Knowing and meeting expectations encourages independent action and fosters self-esteem.

Signals:
- **Lights Off** means Stop, Look and Listen
- **Bell** means Clean Up and Find the Teacher

School Rules: (3.B.05)
- Be a kind friend.
- Listen the first time.
- Follow the routine.
- Stay in your own space.
- Use your words.
- Use inside voices.
- Use walking feet.
- Use things appropriately.
- Put everything in its place.

The students in each class will discuss behavior expectations throughout the year. As appropriate, each class will add specific examples relating to each of the items listed above. For example, for “Be a kind friend,” one year, a 4’s class added “share”, the Kindergartners added “respect the rights of others,” and the 3’s specified “if you put down your toy and move on to something else, another friend can use it.”

All Children’s School staff will: (1.F.01, 3.B.05)
- Provide limits in a calm, consistent, and respectful manner, which allows the child to grow in self-control and self-esteem.
• Respond to a child’s challenging behavior, including physical aggression, in a manner that provides for the safety of the child and the others in the classroom.
• Help children learn to identify both positive and negative emotions, as well as to express them appropriately.
• Work with children to develop conflict resolution skills necessary to solve their disagreements in an appropriate manner.
• Help children express and acknowledge their choices.
• Help children describe problems, evaluate their actions, verbalize alternatives, and consider the perspective of others. Children are guided and supported as they learn to accept the natural consequences of their actions.

This approach includes positive reinforcement for appropriate behavior, redirection, reminders of classroom rules, modifying the classroom environment and/or daily schedule, and providing a supervised quiet time for the child to gain control. After a quiet time, the teacher invites the child to rejoin the group and reminds the child of the relevant expectations for the activity in progress (1.F.02).

Staff shall observe all children and document any problem behavior to help ascertain any patterns re: events, activities, and interactions, as well as any precipitating contextual factors. If a child’s behavior problem persists or becomes dangerous to the other children in the class (e.g., punching, kicking, temper tantrums), the teacher will bring the child to the school office to regain composure and talk with a member of the Administrative Team. Such situations are rare at the Children’s School and are discussed thoroughly with the child, the teacher, and the parent to determine positive steps toward solution. Families are referred to specialists for help with persistent problems that may be linked to developmental issues, with the goal being to support the child’s successful inclusion in the classroom (1.E.01, 3.B.12b).

Prohibited Practices (Child Abuse 10.D.03-04)

If any staff member, family member, volunteer, or other person, while in the vicinity of the Children’s School, engages in a practice prohibited by the program, the Director and/or Educational Administrator will take necessary steps to assure that there is no reoccurrence of the practice.

• Corporal or any type of physical punishment is not permitted. This includes hitting, spanking, beating, shaking, pinching, or other measures that produce physical pain. (1.B.09)

• Any form of emotional abuse, including rejecting, terrorizing, isolating, or corrupting a child is not permitted. (1.B.09)

• Any form of public or private humiliation, including threats of physical punishment, is not permitted. (1.B.09)
• Withdrawal or the threat of withdrawal of food, rest, or bathroom opportunities is not permitted. (1.B.10)

• Abusive, profane or derogatory language, including yelling and belittling, is not permitted. (1.B.10)

**Reporting Child Abuse (10.D.03-04)**

All observations or suspicions of child abuse or neglect will be immediately reported to the child protective services agency no matter where the abuse might have occurred (10.D.03). The Director or an Educational Administrator will call ChildLine at 1-800-932-0313 and/or the Allegheny County CYS at (412) 473-2000 to report suspected abuse or neglect. The Director or an Educational Administrator will follow the direction of the child protective services agency regarding completion of written reports. If the parent or legal guardian of the child is suspected of abuse, the Director or an Educational Administrator will follow the guidance of the child protective agency regarding notification of the parent or legal guardian. Staff who report suspicions of child abuse or neglect are immune from discharge, retaliation, or other disciplinary action for that reason alone, unless there is proof that the report is malicious.

In the case of a staff member who is accused of child abuse (10.D.04), the Director or an Educational Administrator will work directly with the CMU Human Resources Liaison and Legal Consultant to ensure due process and confidentiality for the staff member. A staff member who is accused of child abuse may be suspended or given leave without pay pending investigation of the accusation. Such caregivers may also be removed from the classroom and given a job that does not require interaction with children. The Director or an Educational Administrator will follow the guidance of the University officials regarding notification of the parent or legal guardian of the suspected abused child, as well as communication with parents or legal guardians of other children so that they may share any concerns they have had. However, no accusation or affirmation of guilt will be made until the investigation is complete. Caregivers found guilty of child abuse will be summarily dismissed or relieved of their duties.
SCHOOL CANCELLATIONS

We announce our school closing/delay on both WTAE (1250 AM) and KDKA (1020 AM). We also inform the three local television stations of our delays/closings: WTAE, KDKA, WPXI. After calling the news stations, an Educational Administrator will send an email to our families. Families can also register for direct email notification from one of the station web sites.

Because Children’s School educators and families live in diverse areas in and around the city, we cannot factor travel conditions from every location into our decision about whether to delay or close school. At 5:30 AM, we listen to the news, assess the weather situation, and make our best judgment about whether to have, delay or close school that day. Since our children do not walk to school or wait outside for buses, we do not typically delay or close school purely for cold temperatures. Depending on the road conditions, we may decide to choose one of three options:

1. **One Hour Delay**
   
   During a one-hour delay, we will greet the morning preschool classes and kindergarten at 9:30 AM. Dismissal will be at the normal times and the Extended and Afternoon Programs will be on normal schedule. Option #1 enables us to conduct the morning preschool classes, while giving our educators and families time for the road conditions to improve.

2. **Two Hour Delay/No Morning Preschool**
   
   During a two-hour delay, we will greet the Kindergarten Class at 10:30 AM and dismiss at the normal time. The Morning Preschool and Extended Morning Programs will be canceled but the Afternoon Programs will be on normal schedules.

3. **School Closure**
   
   Morning and Afternoon Preschool and Kindergarten are canceled.

In all cases when school is in session, we encourage parents to use their best judgment about whether the roads in your area are safe to bring your child to school.

Please be aware that the school district providing your bus service may issue a weather related delay or closing while the Children’s School remains open. This information is broadcast via local television or radio stations. Families may choose to bring the child to school or follow the school district busing plan.
EMERGENCY ACTION PLAN

The Children’s School’s Emergency Action Plan specifies four safety levels including one for normal operations, one for cases when children need to be kept away from a certain area (e.g., a hazardous spill that needs to be cleaned, an accident, etc.), one for emergencies that require a lockdown / containment away from windows (e.g., a chemical spill from the nearby railroad, etc.), and one for evacuation (e.g., in case of a fire). Our first evacuation sites are the reflection garden, parking lot, or outdoor classroom. For longer evacuations, we go to the University Center or The Cyert Center for Early Education. If we have to evacuate the whole campus, the university will provide buses to take us to one of four pre-arranged locations, each in a different direction from the campus. In the event of a long-term evacuation, we contact families as quickly as possible via phone to notify them of the plan for reuniting them with their children. If phone service is not available, Carnegie Mellon officials use local broadcasting services to make announcements regarding status and procedures.

In an emergency or time-critical situation when the Director is not present or reachable by phone, the most senior Administrative Team member present will serve as the Acting Director. If neither the Director nor either of the Educational Administrators is present at the time of an emergency, the most senior teacher present will decide collaboratively with other staff on a course of action.
UNIVERSITY TUITION REGULATIONS

Agreement: Parents or guardians are required to sign an agreement indicating the fees and payment schedule, services to be provided, date of admission, arrival and departure times, and services considered extra (e.g., camp). The family keeps the original and the Administrative Team puts a copy in the child’s file. This agreement form must be reviewed every semester, so we typically do so at the time of parent-teacher conferences.

Deposit: A five hundred dollar ($500) deposit is required to reserve a child's space in the Children's School preschool program. A seven hundred dollar ($700) deposit is required to reserve a child's space in the Children's School kindergarten. This deposit must be submitted with a complete set of enrollment forms to the Administrative Team in order to reserve a child’s space. The deposit is non-refundable but is applied to the fall tuition. A two hundred dollar ($200) deposit is required for the extended morning program. This deposit is refundable ONLY if the vacated space is filled by another student.

Tuition & Fees: The full tuition and fees are due by the first day of school each semester, unless other arrangements, such as a monthly payment plan, have been made with the Administrative Team. The accounting department will send an invoice for each semester's tuition, plus the snack and materials fee. The snack fee covers all kitchen activities, as well as snacks, and the materials fee covers all classroom expenses for consumables, equipment, furniture, etc. Payments should be mailed to the accounting department at the address indicated on the invoice.

Late Fee: A late settlement fee of $20 may be assessed for all financial settlements made after the first day of school. After the next ten days, an additional $10 late fee will be assessed each class day to a maximum of $250.

Refund Policy: Parents who give written notice of voluntary withdrawal will receive a credit as follows:
• Within the first ten class days of the semester, the full tuition charged will be credited with the exception of the $500 or $700 deposit.
• After the first ten days of a semester, but prior to Carnegie Mellon’s mid-semester break, parents who withdraw their children will be credited one-half of the tuition fee charged.
• After mid-semester, no tuition is credited for withdrawals.

Termination Policy: The Children’s School may terminate the enrollment and enforce the withdrawal of any child at any time due to delinquent payment, ill health, consistent behavior problems without the requested child guidance evaluation being completed, parent dissatisfaction, and any other problems in accordance with the Children’s School Family and Staff Handbooks, or as necessary and determined by the Director.
Hand-washing Technique (5.A.09)

The following is the hand-washing procedure recommended by the National Association for the Education of Young Children: Rub hands vigorously for at least 20 seconds, including back of hands, wrists, areas between fingers, around nail beds, under fingernails and jewelry. The children are taught the much more detailed version below, along with the accompanying song composed by the Children’s School minstrels.

Hand washing Technique:

**Step 1:** Put your hands together. Slide the tips of the fingers of the right hand to the left hand’s wrist and then slide hands together in a wave-like motion until the left hand’s fingertips are now touching the right wrist. Gently create a wave back and forth to wash the palms of your hands. (If you hold up your hands palms together and look, you can actually see a pocket between your hands. This is why the wave motion is effective in reaching the palms, which is a place germs hide.)

**Step 2:** Build a bridge by placing right hand on top of the left hand. Interlock the fingers and gently move the right hand over the left hand several times. Switch hands and repeat.

**Step 3:** Create a bracelet with the fingers of your right hand over the wrist of your left hand. Slide the fingers of your right hand around and around your left wrist. Now slide your finger bracelet off and on your left hand several times. Switch hands and repeat. (This cleans the outside of the hands, paying special attention to the thumbs and little fingers).

**Step 4:** Pinch fingers together, place finger tips in the palm of the opposite hand and twist, twist, twist in a circle to gently clean your nails. Switch hands and repeat. *(Jeannie Simms, American Respiratory Alliance of Western Pennsylvania, November 2, 2009).*
Hand-washing Song
(sung to the tune of “Row, Row, Row Your Boat”)

Slide, slide, slide your hands,

Make a bridge like this.

Don’t forget both bracelets,

Then you have to twist!

School Year Calendar & Calendar Year Highlights
Staff Teams
Pgh / CMU Map
Carnegie Mellon University Children’s School
Educator Teams 2016-2017

There are nineteen qualified educators who plan, teach, and administrate at the Children's School. Each year, new areas of the curriculum are developed, coordinated, and incorporated into the school program, and we collaborate with parents to enhance communication and services. Educators meet on Friday afternoons to plan, implement and evaluate the program.

**Administrative Team**
Dr. Sharon Carver, Director (412-268-1499, sc0e@andrew.cmu.edu)
Miss Allison Drash, Administrative Coordinator (412-268-2199, adrash@andrew.cmu.edu)
Miss Linda Hancock, Educational Administrator (412-268-2198, lh37@andrew.cmu.edu)
Mrs. Maggie Rosenblum, Educational Administrator (412-268-3476, rosenblu@andrew.cmu.edu)

**Kindergarten Team (412-268-2199)**
Mrs. Caitlin Armbruster, K Associate Teacher (csa10@andrew.cmu.edu)
Mrs. Holly Blizman, K Teacher (hollysch@andrew.cmu.edu)
Mrs. Donna Perovich, K Teacher (perovich@andrew.cmu.edu)

**Preschool 4’s Team (412-268-2199)**
Mrs. Jean Bird, AM 4’s Teacher (jbds@andrew.cmu.edu)
Mrs. Estelle Cherin, PM 4’s Teacher (estellecherin@cmu.edu)
Mrs. Krissy Opferman, AM 4’s Teacher (opferman@andrew.cmu.edu)
Mrs. Jillian Wendolowski, 4’s Teacher (jmangan@andrew.cmu.edu)

**Preschool 3’s Team (412-268-2199)**
Mrs. Lisa Loomis, AM 3’s Associate Teacher (lfurman@andrew.cmu.edu)
Ms. Anne O’Neill, AM 3’s Teacher (aconeill@andrew.cmu.edu)
Mr. Tim Salinetro, PM 3’s Teacher (salinet@andrew.cmu.edu)
Mrs. Charline Tomer, AM 3’s Teacher (charline@andrew.cmu.edu)

**Extended Day Team (412-268-2199)**
Mrs. Jean Bird, Extended AM Teacher (jbds@andrew.cmu.edu)
Mrs. Lisa Loomis, Extended AM Associate Teacher (lfurman@andrew.cmu.edu)
Mrs. Beth Myers, Extended AM (ewmyers@andrew.cmu.edu)
Mrs. Krissy Opferman, Extended AM Teacher (opferman@andrew.cmu.edu)

**Physical Education Coordinator:**
Mrs. Jillian Wendolowski (jmangan@andrew.cmu.edu)

**Educational Collaborator/Substitute Teachers**
Mrs. Violet McGillen, Educational Collaborator (vmcgille@andrew.cmu.edu)
Mrs. Cheri Mack, Substitute Teacher (cherischool@comcast.net)
Miss Lin Zhu, Educational Intern (linz1@andrew.cmu.edu)
Administrative Team

Sharon Carver, Ph.D., is beginning her twenty-fourth year as the Director of the Children's School. She earned an A.B. in Psychology and completed the K-12 Biology Teacher Certification Program at Princeton University and then earned a Ph.D. in child development at Carnegie Mellon. She taught in the Graduate School of Education and the Department of Psychology at the University of Rochester for five years before returning to Carnegie Mellon. Since coming to the Children's School, Sharon has worked with staff and parents to strengthen the school's program, improve the facilities, and build strong connections with the university. In 2004, Dr. Carver was promoted to full teaching professor, and she was reappointed in 2008 and again in 2013 for additional 5-year terms. She teaches undergraduate courses in Child Development as well as offering a practicum program at the Children's School. She is also the Associate Training Director for the graduate Program in Interdisciplinary Education Research (PIER), for which she teaches the educational design core course, and on the curriculum committee for the Masters in Educational Technology and Applied Learning Sciences (METALS). She serves on the board of the International Association of Laboratory Schools (IALS) and recently finished two sequential board terms for the National Coalition for Campus Children’s Centers (NCCCC). She was also a panel member for the Institute of Education Sciences (IES) Early Mathematics Practice Guide, published in November of 2013. Sharon’s husband, Dave, is pastor of the First United Presbyterian Church of Crafton Heights. Sharon enjoys photography, hospitality, and traveling. In her free time, she learns home remodeling skills while helping her daughter and son-in-law, Ariel and Drew, renovate their first home, and she enjoys playing with her 3-year-old granddaughter, Lucia.

Allison Drash, a Pittsburgh native and a CMU Children’s School alumna, is beginning her eighth year as Administrative Coordinator. She has an undergraduate degree from the University of Pittsburgh in photojournalism, plus a Masters degree from Carnegie Mellon University in Communication Planning and Information Design. Allison enjoys numerous artistic pursuits, including photography and interior design projects. She also loves swimming, biking, and urban hiking in search of secret city steps and cool architectural decay. In addition to exploring the city’s numerous parks with her faultless dogs, Allison gets great pleasure from connecting newcomers to all that Pittsburgh has to offer.
Linda Hancock is beginning her twenty-ninth year at the Children’s School. From 1988-2009, she taught in the Children’s School Kindergarten. In 2009, Linda began her tenure as an Educational Administrator, a role in which she provides support for the preschool and kindergarten programs. Linda graduated from Chatham College with a B.A. in Psychology as well as receiving teacher certification in Early Childhood and Elementary Education. While teaching at the Children’s School, she earned a Masters Degree in Education at Duquesne University. Linda volunteers her time with several organizations including LJ's Loft, a music academy dedicated to the memory of her brother, the Norwin Lions, in which she chairs the Student of the Month and Scholarship committees, the Norwin Play It Forward Fund, and the Norwin Area Arts Council. She also serves on the scholarship selection committees for the LJ Fund of The Revelli Foundation, the LJ Hancock Fund of The Pittsburgh Foundation, and the Norwin Play It Forward Fund. Linda and her fiancé, Dennis, enjoy gardening, cooking, swimming, yoga, classic car restoration, and the performing arts.

Maggie Lane Rosenblum graduated from the University of Wisconsin-Madison with a B.A. in the History of Science. After working for more than ten years in a supervisory capacity for small research firms on Wall Street, she moved to Pittsburgh with her family and earned certification in Early Childhood Education and a Masters degree from the University of Pittsburgh. For two years, Maggie worked as a preschool teacher at Temple Children’s Center in Squirrel Hill. This is her seventeenth year at the Children’s School. For the first 10 years, she was a 3’s teacher, and for the past 7 years she has been an Educational Administrator. Maggie lives with her husband, Mathew, a composer and theorist in the Music Department at the University of Pittsburgh and their two cats, Charlie and Kingsford. Their daughter, Anna, graduated from CMU three years ago and is currently working at the Pittsburgh architectural firm, Evolve. Their daughter, Sara, graduated from Wheaton College in Massachusetts two years ago and is currently working as Field Director for Working America in Columbus, Ohio. Maggie enjoys eating dark chocolate while reading mystery novels, and she collects antique three piece china soap dishes. The Rosenblum family enjoys walking, talking to their cats, and ordering cheese boards at local restaurants.
Kindergarten Team

**Caitlin Armbruster** grew up in Farmington Hills, Michigan where she began her passion for the arts. She came to Pittsburgh to earn her Bachelor of Arts degree in Dance from Point Park University. Upon graduation, she performed with Pittsburgh Musical Theater and the National Tours of My Little Pony Live! and Sesame Street Live! Caitlin is a licensed Pennsylvania Private School Teacher and is excited to be entering her eighth year with The Children’s School. In her free time, Caitlin and her husband, Dan, enjoy walks to the park and playing outside with their daughters, Addison and Kiley, and their dog, Roxie.

**Holly Blizman** grew up in Aurora, Ohio and earned a B.S. in Human Development and Family Science at Ohio State with a minor in Early Childhood (2008) and then a Masters of Arts in Teaching in Early Childhood (PreK-3rd) from Kent State University (2009). Prior to teaching in Pittsburgh, Holly taught 2nd grade, elementary art, and worked as a 4th and 5th grade math tutor. She is excited to begin her sixth year with the Kindergarten team at the Children’s School! This winter, Holly and her husband, Jeff, welcomed their first daughter, Lily, into the family! During her free time, Holly and her family enjoy cooking, traveling, and trying new restaurants.

**Donna Perovich** earned a B.S. in Elementary Education from the University of Pittsburgh and an Early Childhood Certification from Chatham University. She joined the Children’s School staff in 1997 as the Administrative Coordinator and is now beginning her eighteenth year teaching in the kindergarten. Donna and her husband, Michael, keep busy with their family funeral home, their three children, and their two grandchildren, Lexi and Holden. Ben, her son, is the sixth generation of funeral directors to work in the family business, Rachel, her eldest daughter, lives with her family in Norfolk, VA, and Hannah, her youngest, lives and works in Orlando, FL. Donna also keeps busy with projects in her home and garden. She relaxes with a good book and loves to travel with her family.
Jean Thompson Bird grew up in Pittsburgh and graduated from the University of Pittsburgh in Child Development. She taught in the Children’s School for seven years directly out of college. Jean continued to work part-time for CMU in the Center for University Outreach DASH project (Developmental Approaches to Science, Health, and Technology), all the while staying connected to the Children's School as a parent and substitute teacher. She returned to the Children's School staff sixteen years ago as an Extended Morning teacher and has been teaching Extended Morning and the Older 4’s class full time since 2005. Music, woodworking, science, and exploring books and stories are some of Jean’s favorite activities to do with children. Jean is active in the mission and outreach work of Waverly Church, including directing the Children & Youth Ministry program and teaching early childhood classes. She especially enjoys performing in and producing the Waverly Opera House, a yearly melodramatic, musical show that raises funds for youth programming. Jean’s husband, Jim, adds some cool factor into the family with his hobby as a rock and roll guitar and bass player. Jean and Jim’s three daughters, Emilie, Ahleajha, and Darrah, and son-in-law PJ Pfeuffer, all live and work in Pittsburgh. Jean is the proud “Mimi” of 2 year old Rowan, son of Darrah and PJ. Darrah and Emilie both have fond memories of the Children’s School as alumni.

Estelle Cherin grew up in Pittsburgh and graduated from Ohio University with a B.S. in Elementary Education and a minor in Reading and English. She took classes at the University of Pittsburgh towards her Master’s degree. Her professional experiences includes teaching Kindergarten, third and fifth grade Social Studies and fourth grade Science at Saint Edmund’s Academy for three years. After her sons were school age, Estelle resumed her career at the Jewish Community Center where she taught three-year-olds in the preschool for 12 years and four-year-olds in the Amazing Afternoons program for two years. This is her sixteenth year at the Children’s School. Both of Estelle’s sons are Children’s School alumni. Joel is now living in Los Angeles as an entertainment writer. He is married to Karen Kaplan Solomon, a fashion stylist. Steven is a criminal investigator for the Federal Government in Washington, D.C. and is married to Keisha Robinson-Solomon, an attorney for the District of Columbia. Estelle has a four-year-old granddaughter who is a source of happiness! Estelle’s husband, Steve, is a corporate attorney. Estelle enjoys reading, gardening, theatre, travel, the symphony, walking, playing golf, needlepoint and seeing the world through the eyes of children! Estelle and Steve are proud supporters and volunteers for 412 Food Rescue.
Krissy Opferman grew up in Pittsburgh and graduated from Indiana University of Pennsylvania with a B.S. in Elementary Education. Krissy is beginning her seventh year at the Children's School and is teaching the AM Younger 4s and Extended AM group. Prior to joining the Children's School team, Krissy taught at Beginnings Pre-School, the AIU DART program and the St. Anthony School Program. Krissy and her husband, George, have two children, Thomas and Mary Kate. Thomas is a recent graduate from Duquesne University and Mary Kate is a sophomore at Duquesne University. Krissy serves on the Executive Board of Angels’ Place, volunteers for the St. Vincent de Paul Food Pantry and is a member of the 100 Women Who Care organization. Krissy enjoys playing tennis, walking her dog, Molly, and spending time with family and friends.

Jillian Wendolowski grew up in Wilkes-Barre, PA and graduated from King’s College with a B.A. in Elementary Education. She is K-6 certified and has spent all of her professional career working with early childhood and elementary-aged children in a number of different settings. Jillian has worked as a camp counselor, ELL tutor, after-care teacher, preschool teacher and a 4th and 5th grade reading teacher. Last year Jillian’s role changed in an exciting way such that she continued working with all of the 4-year old friends in a support role and began leading gym / gross motor activities with all of the children from the red room up to the kindergarten. Jillian will continue that role during this eighth year at the Children’s School. During her free time, Jillian and her husband enjoy traveling, sports, cinema and being outdoors and active.
Preschool Three’s Team

Lisa Loomis is delighted to enter her ninth year at the Children’s School as an Associate Teacher. She is happy to be a team player on the 3’s team, and she looks forward to enhancing the Extended Morning program with her creativity. Lisa completed her undergraduate years at California University of Pennsylvania in 2003. She continued her education at Carlow University where she earned her M.Ed. in Early Childhood Education in 2014. She and her husband, Carl, enjoy hospitality in their home, roaming through Phipps Conservatory, and serving together in their church. Lisa loves being an aunt, she loves to sing and she enjoys writing notes of encouragement, sewing, creating, cooking, giving homemade gifts, capturing memories through photography, and finding uses for odds and ends from the art closet.

Anne O’Neill grew up in the Squirrel neighborhood of Pittsburgh. She has returned to her hometown after ten years of teaching and learning in Chicago and is very excited about joining The Children’s School at CMU. After completing a year of service through Americorps, Anne felt drawn to the profession of teaching. She earned her Masters degree in Education from DePaul University. Anne then chose to focus on working in early childhood, and with English Language Learners, so she earned certificates to improve her skills in these areas. The majority of her professional work has been in multi-age (3-5yr) classrooms. Anne truly enjoys incorporating the arts and expression into her curriculum. Her hobbies include practicing yoga, exploring Pittsburgh with her husband, and traveling to new places.

Tim Salinetro graduated with a B.S. in Mathematics and a minor in theology from Duquesne University in May 2004. This is Tim’s twelfth year as an educator at the Children’s School, and this will be his fifth year as the head teacher for the afternoon three-year-olds. He is a Youth Group advisor at his church and is a volunteer at the Open Door, a community youth center in his neighborhood that serves children from grades K-12. He enjoys tinkering (busying himself with something without clear results), bird watching, building and repurposing things, spending time outdoors, and sharing these interests with children of all ages. Tim will continue working on his Masters degree and certification in Early Childhood/Elementary Education at Duquesne University.
Charline Tomer earned a B.S. in Preschool Education/Child Development from Ohio University and a Masters in Early Childhood/Special Education from George Washington University. She taught two-year-olds for 3 years at the Ohio University Education Laboratory School, two and three-year-olds for 2 1/2 years at the Gerard Majella Child Center at Marymount University in Virginia, and three to five-year-olds for 9 years at the Elfinwild Church Preschool in Glenshaw. In 1995, she developed a hands-on science program that she implemented with all the classes at Elfinwild. Then, in 1998 she developed a “Moms and Me” program for 2 ½ year olds at Elfinwild and facilitated it until she joined the Children’s School staff in 2001. Charline and her husband, Henry, have two sons, Kevin and Rich. Their oldest son, Kevin and his wife Nicole, have a seventeen month old son, Ryan. Rich and his fiancé Sarah will be getting married in 2017. Charline loves listening to music, the performing arts and movies, and is also active in her church and community.

Support Staff

Cheri Mack is a native of Pittsburgh, PA. She has a heart for mission and is an active member of the First U.P. Church of Crafton Heights where she is the Director of the Crafton Heights Community Preschool. She has implemented many valuable early childhood development initiatives at this inner-city preschool where she has worked since 1996. She enjoys working as a substitute teacher at the Children’s School and is eager to help wherever she is needed. Working with the wonderful team at CMU continues to bring Cheri a sense of joy and satisfaction. In her spare time, she enjoys bird watching, gardening and cooking.

Violet McGillen earned her B.S. in Elementary/Early Childhood Education from Millersville University of PA. Previously, she worked in public school systems teaching kindergarten and first grade and assistant teaching in a special education classroom. At the Children’s School, Violet worked as an Assistant Teacher with the extended afternoon program and as a teacher in the four’s and kindergarten classrooms. Violet currently serves as the Children’s School Educational Collaborator, substituting in any classroom as needed and working on various school projects.
**Beth Myers** holds a Bachelor of Arts in English from William Smith College and a Masters of Arts in Education from the University of Pittsburgh. Beth has enjoyed working in an array of educational environments, including outdoor camps, aquatics programs, children’s museums, and theaters. She has experience working with children with special needs and volunteers at the Children’s Institute of Pittsburgh as a member of the Family Advisory Council. Beth has been a friend to the Children’s School since 2003 and each of her children has played and learned at the school. She is really looking forward to continuing her role teaching the Extended Morning program.

**Lin Zhu** comes to us from China where she earned her Bachelors of Music Performance from Shanghai University as a soprano vocalist. Additionally, she has been trained on the Guzheng, a traditional Chinese instrument. In April 2016, Lin received her Masters in Early Childhood Education from The University of Pittsburgh. She was a volunteer in 4’s classroom last year and is proud to be the first international Educational Intern at the Children’s School! She looks forward to using the cultural diversity that she brings to the Children’s School as an approach to teaching the children to live richer lives. In her spare time, she enjoys traveling with her friends and singing. Also, Lin went skydiving for the first time this summer!
### Fall Semester 2016

**June Camp: June 5 (M)-June 30 (F)**

### Color Key:

- **Conferences**
- **Family Events**
- **Holidays**
- **No School**
- **Professional Development**
- **University Events**
August
• **Parent Meeting**  Wednesday, Aug. 31
  This informative time is for parents only.
  4:30-5:30  Kindergarten Parents
  Parent/Teacher Meeting re: details of Orientation Days, classroom procedures, and basic learning goals for the year.
  5:30-6:00  All Parents
  All parents will meet with Dr. Carver to discuss new developments at the Children’s School.
  6:00-7:00  Preschool Parents
  Parent/Teacher Meeting re: details of Phasing-in/Orientation Days, classroom procedures, and basic learning goals for the year.

September
• **3’s School Visit**  Friday, Sept. 9
  10:00-11:00 AM 3-year-old Classes
  1:00-2:00 PM 3-year-old Class
  The 3’s class visits are held at the Children’s School for the parents and their child who is enrolled in the program (no siblings). The children enjoy a visit to their classroom with their parents.

• **3’s Phasing-In, 4’s/K Orientation Days**
The entry process is carefully planned to make the children’s first days of school as reassuring as possible. During Phasing-In & Orientation Days, the teachers focus with the children on getting to know each other, becoming familiar with the space, and learning the classroom routines.
  * **Phasing-in Days** involve only half the class in a shorter program. *(See enclosed schedule.)*
  * **Orientation Days** involve the whole class and are the full program length for 4’s but only until noon for the K.

October/December
• **October Open Houses**
  Oct. 5 (W)  4-year-old Classes
  Oct. 19 (W) 3-year-old & Kindergarten Classes
  This evening event is for the entire family to come see the school and participate in school activities.

• **December Open Houses**
  Dec. 6 (T)  Extended Morning, 4’s
  Dec. 8 (Th)  Extended Morning, 3’s
  These events are for parents to come see the program and participate in extended morning activities during the regular school day.

March
• **Family Theatre Arts Festival**
  Mar. 9 (Th)  4:30-6:30 PM
  This event is designed to provide the entire family with fun hands-on activities at the school. Our theme for this year’s whole school unit and festival is **THEATRE**.

May
• **Kindergarten Graduation**
  May 19 (F)  10:00 AM
  This event is for kindergarten families – parents, siblings, grandparents, etc.

• **Whole School Celebration Picnic**
  May 19 (F)  11:00AM-1:00PM
  This event is for all school families to celebrate the 2016/2017 school year.

June 5 – June 30
• **Camp**  9:00AM-1:00 PM  M-F
  The camp is for children enrolled in the current three, four and kindergarten programs. Children must be potty trained to enroll in the camp program. Applications are sent to families at the beginning of March. The theme for the 2017 Camp is **BUGS**.
